

# Quick Guide

Smart  
**Tracker** 

1. Strap hole
2. Notch: for replacing battery
3. Speaker
4. LED indicators

# Getting Started:

## 1 Download the App

Download free 'iMagic track' App from App store or Goolge play.

## 2 Register / Login

Register the account and login.

## 3 Pair Mini

Pull out the insulating paper, follow the in-app instructions to active Mini.

- \* Enable phone Bluetooth and location services before pairing.
- \* Up to 12 trackers can be paired with an iPhone. 4-6 trackers can be paired with an Android phone.

#### 4 Attach tracker to your items

The tracker can be attached to your keychain, bag or other items.

If the strap is required, follow the guidance below to install the strap.

#### 5 Keep App active in background

In order to make the tracker work properly, please keep 'iMagic track' App active in the background. For more details, please read the 'Anti-lost Permissions setting' in the instructions for the App.

## Functions:

### One Touch Find

Press the 'call' button within App to call your Mini when it is connected to your phone.

### Bi-directional Alarm

Both the tracker and your phone will alarm when they disconnect.

### Find-it Mode

Set the tracker to 'find-it mode' to disable all the anti-loss alarms.

## Location Records

The App will automatically record the 'disconnected location', this is the location where tracker was disconnected from your phone.

## Smart Silence

There are two 'silent modes' in the App: Set your home and work place as silent regions. Set bed time as a silent period.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause

undesired operation.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

**NOTE:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful

interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by

turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
